**“Accelerating
Achievement for
All Students”**

Help with SAT Preparation Available to DoDDS Students

The Official SAT Online Course is available to all DoDDS-Okinawa high school students. Our secondary students have access to six practice tests and 600+ questions, all of which follow proprietary SAT test specifications.

Students gain confidence by practicing with questions just like those they'll see on test day. By working through 19 interactive lessons, which cover the SAT mathematics, critical reading and writing section, as well as the PSAT/NMSQT, students are part of an engaging multimedia learning environment. Additionally, students receive explanations of answers to all questions in the online course and to all eight practice tests in *The Official SAT Study Guide*. Reviewing detailed explanations helps students to focus on areas where they need improvement.

High school students were issued password and login information by their school counselor or seminar teacher.

“We are very excited to be able to offer this wonderful service to our students! It is a comprehensive program and is available 24 hours a day, 7 days a week. We all know that preparation is the key to success and this program will assist us in accelerating achievement for all students,” commented DoDDS Okinawa Superintendent Martha Brown.

To reach the on-line course, log onto <http://Collegeboard.com/satonlinecourseschool>.
